SEA KAYAK

Sea kayaking or touring is the sport of paddling on the open water of lakes, bays, and oceans. Touring can involve journeys ranging from a few hours to many weeks, along protected coastlines and inland lakes or out in the open sea. Sea kayaks are seaworthy small boats with a covered deck and the ability to incorporate a spraydeck to keep water from entering the boat. They are much longer than whitewater kayaks, offering cargo capacity, ease of straight-line paddling, and comfort for long journeys. Sea kayaks generally accommodate one or two paddlers together with room for camping gear, food, water and other supplies. Sea kayaks usually range in length from 11-18 ft/3.3m–5.5m for solo craft, and up to 25 ft/7.6m for tandem craft. Increasing the length of a kayak generally adds speed, which is useful for covering long distances. Longer kayaks are also less maneuverable, as turning quickly is not as important in open water. Sea kayaks provide an excellent way to get out on the water – for a day or a week, on familiar terrain or unknown territory, alone or with family and friends.

SEA KAYAK BOATS K1 COMPOSITE

MADE FROM A COMBINATION OF CARBON, KEVLAR AND FIBERGLASS, THEY ARE LIGHTER THAN THEIR PLASTIC COUNTERPARTS BUT LESS DURABLE IN THE EVENT OF IMPACT.

P&H CETUS LV LIGHTWEIGHT KEVLAR/DIOLLEN HYBRID PERFORMANCE

Fast paced, responsive and easy to carve with the ability to spin on a dime, the Cetus is perfect for new comers to launch their adventures and experts to continue them. Offering superb stability in all conditions without the need for loading, but with plenty of capacity for those serious expeditions, the Cetus is the boat to see the world from. P&H's handcrafted quality is on show here in its finest form, blending a perfect balance of Kevlar and Diolen for minimal weight but maximum performance, even that titanium cutlery set will seem unnecessarily heavy in comparison.

VENTURE KAYAKS | COMPOSITE CAPELLA 173

The Capella range of composite sea kayaks were previously sold under the P&H brand and are a tried and tested set of traditional British sea kayak designs proven in the harshest conditions the world has to offer. A moderate V-hull and soft chines will advance your technique and ability, and each of the four available sizes is finely tuned to give the same great handling experience. Now available under the Venture brand, the Composite Capella represents excellent value for money and a great choice for the discerning beginner who wants a kayak that will truly grow with them.

HEADLAND KAYAKS | RAZ 14

The Raz is a shorter "play style" sea kayak, the design considerations are very much towards performance in rough water and the surf zone. The high volume bow with lots of rocker, a shallow V- flat hull cross section and hard chines gives the Raz great manoeuvrability and handling, really coming into its own playing in waves and tide races. Although relatively short at sub 15 ft the Raz still has enough hull speed to day paddle and explore the coast with good stowage volume for week-end trips.

HEADLAND KAYAKS | FINISTERE 16

The Finisterre is a modern UK style sea kayak, available in two sizes to fit a range of paddlers. The design emphasis is for a playful, rough water sea kayak, maneuverable with good stability and seaworthiness. More of a "day boat" than "expedition kayak" but with ample carrying capacity. The novice will find the "Finisterre" stable and predictable to allow them to hone their skills, the experienced paddler will enjoy the performance and manoeuvrability. The Finisterre is an easy kayak to edge turn, predictable in surf and happy rock hopping or playing in tide races.

**VALLEY SEA KAYAKS | SIRONA**

Sirona Valley's "New For 2016" replacement of the popular Avocet, needed to be something special, fortunately this design is up to the challenge. Short and with sufficient rocker, to excel at Ocean play-boat but with sufficient speed and tracking for effortless touring. This versatile design is set to be a cornerstone of Valley's range: combining the best characteristics of Valley's previous Avocet & Pintail models. This gives the Surf/Ocean play performance or the Pintail, with the speed and tracking of the Avocet. The ideal choice for those not requiring a longer "expedition-style" kayak.

LENGTH: 16-3 - WIDTH: 22.75/58CM - VOLUME: 13.25/33.5 - WEIGHT: 30 - PADDLER WEIGHT RANGE: 90-135KG - LEVEL: PERFORMANCE - DIFFERENT SIZE AVAILABLE: 2 OTHER SIZES 16-1490CM AND 15-11-/485CM

**ZEGUL | ARROW EMPOWER**

The Empower is a full bodied sea kayak made for long trips and expeditions. The Empower kayak is surprisingly agile despite its length, has a very nice glide and it handles almost like a play boat when put on edge. The Empower kayak has soft chines and a long water line. The hull's profile is rounded and the rocker is moderate to handle big seas. The four hatches are all beautifully recessed into the deck and packs with ease for extended trips or just for a weekend getaway. The knee hatch holds gear like an VHF radio or cell phone and small water bottle. The day hatch has lots of room for other stuff needed while at sea.

REBEL | GREENLAND T

Greenland T features the same classic lines as the Ilaga with a hard chin all the way along the V-bottomed hull. The front deck is still low enough for paddler contact to aid manoeuvrability and forward rolls whilst the rear deck makes for easy laid back rolls. The rocker is tuned for easy maneuvers. We also added an extra cord on the rear deck to store a storm or a spare paddle. Greenland T features the same laminated backrest that connects the seat with the top of the back rim as on the ILAGA. The backrest can be folded to access a little extra 'close to hand' storage. The Greenland T's deck layout is the same as on the Ilaga except for the addition of a 15cm easy access day-hatch.

**TAHE OUTDOORS | ZEGUL ARROW PLAY MV**

Arrow Play MV is a performance sea kayak, developed specially for maneuvering and playing in the sea. It is also an excellent kayak for day trips and longer overnight getaways. The hull has significant rocker and volume in the bow to avoid diving when riding down the wave. The mid-section has a slightly rounded profile making it very smooth form edge to edge. This combined with the hard chines make the Play a joy to paddle whether you enjoy the rough stuff or just want a sea kayak that responds instantly to your moves.

**TAHE OUTDOORS | ZEGUL SEAROCKET**

The Zegul Searocket is perfectly designed to come closer to entry level paddlers with the increased stability, speed and maneuverability. This boat opens up the opportunity to catch waves faster and stand out from crowd with confidence. The Zegul Searocket has an exceptional hull design with a combination of high demanded construction, which makes the boat acceptable for even beginners. Our Searocket can be considered as the peak of the sea kayaking with the most innovative materials and latest technology.

**P&H | ARIES 155 SAIL SPEC**

If you really want to experience kayak sailing, this is the way to do it... The playful P&H Aries design comes alive in the surf, and with the addition of a P&H Sail System you can gain extra speed to catch even more waves and make the most of each one. You don't have to just be surfing or heading downwind though, the addition of the forward fin means you can effectively tack into the wind and utilise the sail to extend your expedition range and explore even more.

**REBEL | HUSKY**

Huskies are playful, hard working and friendly dogs – just like our new kayak! One of my first "Greenland" style kayaks was called Husky and this version is something like MK 5 or 6, but still has a lot in common with the original concept. The most recent significant change is that we put some more rocker into the hull to aid manoeuvrability. We were pleased with the deck layout so we changed nothing there. For a person up to 90kg, Husky is a real playboat – and with some load, it will be a great working dog for multi-day trips.

AQUARIUS | SEA GHOST

Sea Ghost is a modern version of another of Johan's projects – Ocean Spirit, which was no longer available. A lot of folks asked about it, so we decided to join forces and bring it back to life, but this time under the Aquarius' name. Kayak went through some lifting and we included molded spots for Self Rescue System, which are the trademark of our sea kayaks.

**AQUARIUS | SEA LION LV**

The Sea Lion LV was created for a wide range of sea kayakers, to complement the standard Sea Lion HV, more suited to heavier/larger paddlers. The Sea Lion series is designed following the British Style Design. Comparing it to the «classic sea kayaks» (sometimes called as «American sea kayaks») Sea Lion kayaks have very wide open V shaped bottom - it gives them speed and a lot of fun to paddle in the waves. Sea Lions kayaks are equipped with SKEG only, differentiating them from the classic sea kayaks.

SEA KAYAK BOATS K1 PLASTIC

HEAVIER THAN COMPOSITE BOATS, BUT OFFERING MORE VARIED USE AND MORE DURABILITY IN THE EVENT OF IMPACT.

TAHE OUTDOORS | TAHE MARINE FIT 158 PE

Fit 158 PE budget kayak delivers performance that will satisfy even a more experienced paddler. This kayak is the longest in its PE range and maintains speed very well. Hard chine hull provides greater initial stability and good maneuverability. The over sized cockpit greatly aids in entry and exit. Two storage compartments can hold your gear for every day trip in mind. This kayak is made of triple layer high-density polyethylene and comes with a skeg as standard.

**SEABIRD DESIGNS | SCOTT MV HDPE**

Three layer polyethylene Scott MV HDPE is the mid capacity version constructed in 3 layer polyethylene. Designed to be manoeuvrable and nimble with good stability, comfort and seaworthiness. Scott MV HDPE has a similar hull form and deck layout as the composite version. The shallow V form continues through the flatbottomed mid sections, the hard chines are retained, allowing the kayak to edge and carve well in turns. The «fish form» below water lines and «Swede form» deck profile are the same, giving a sleek and easily driven craft to allow you to cover the miles. It is an ideal kayak for instruction / guiding, rock hopping, surf and playing in tide races.

**AQUARIUS | SEA EMOTION PE**

Polyethylene sea kayak by Aquarius. The Sea Emotion is shorter and narrower if compared to the standard Aquarius sea kayaks line; with a view to be used on longer trips the back cockpit on this kayak has been lowered. This feature allows paddlers to lie on rear deck, if wanted, and rest during the longer paddles. It also helps when doing layback rolls where a lower centre of gravity allows easier righting of the kayak. The other notable upgrade is a plastic seat with a foam cover, which is wider and more comfortable, an advantage cherished by all-day paddlers. The kayak's hull is V-shaped, this shape gives it optimal stability without losing its dynamics and speed.

SEA KAYAK BOATS K2 COMPOSITE

MADE FROM A COMBINATION OF CARBON, KEVLAR AND FIBERGLASS, THEY ARE LIGHTER THAN THEIR PLASTIC COUNTERPARTS BUT LESS DURABLE IN THE EVENT OF IMPACT.

HEADLAND KAYAKS | NEMO 21 K2

The Nemo 21 K2. is the double version of the Nemo. This kayak is essentially a rough water K2 and complies with ICF K2 rule for racing. The Nemo 21 is a fast racing K2 with sufficient stability to contend with rough open water conditions. Pronounced "Swede form" waterlines for speed and the buoyant bow allows down wind surfing without burying. Deep deck cut-aways allow for efficient paddling.

LENGTH: 650CM 21' 4" - WIDTH: 570MM 1' 10.5" - PADDLER WEIGHT RANGE: 65-100KG - MAX. CAP.: 225KG - LEVEL: PERFORMANCE - DIFFERENT SIZE AVAILABLE: NEMO 18 K1 M, NEMO 18 K1 L

DONATO CONSERVA KAYAK | K 190.2

Light and strong these boats are the ideal for long and comfortable journey inshore. One can choose open or closed versions according to their own wishes. As the other models of K1 (see on this guide the K170) the priority is to give the maximum of safety, comfort and beauty. The building method is the same: fine marine plywood; epoxy resin; and to reinforce the hull; special fiberglass cloths. And to finish, the pleasure to have a unique classic kayak, made by hand exclusively for you, durable for the years and never out of fashion. Built (and customized) on request only.

KICK THE WAVES | KORČULA

A K2 Tourist, The Korcula is a high volume kayak, delivering safe kayaking in any condition. The kayak is divided to four compartments; front and rear compartments with ample storage for all your gear, and two individual waterproof cockpits. By having each paddler in an individual cockpit increases safety, stopping the movement of water should the boat become flooded, allowing for independent rescue of each compartment. High volume bow and stern provides easy paddling, even in choppy (or wavy, depends what you think) conditions. The rounded bottom stabilizes the boat in all conditions while the optimum volume distribution allows easy paddling in down or upwind.

PERCEPTION | HORIZON

This versatile twin-cockpit tandem kayak is perfect for either short trips or multi-day expeditions. The long waterline provides excellent directional stability yet the Horizon is still nimble enough for inland adventures. A high volume bow gives a dry ride even in choppy waters, as it climbs over waves and deflects spray from the cockpit areas. It's able to cope easily with varied weight distribution between the spacious cockpits, while stowage compartments give plenty of room for two paddlers' kit. Our popular Zone outfitting system gives full backrest adjustment with a comfortable and supportive fit.

**THINK KAYAK | ION**

At 21'1" x 17.5" she clearly belongs in the advanced boat camp, but the Ion puts a new spin on things. Chief in the design criteria were speed, stability, and big water performance, all perfectly integrated in this podium worthy craft. The Ion's high-rocker design pays back with a remarkably smooth upwind ride and razor sharp downwind performance. That little bit of extra width gives the Ion ample secondary stability, critical when you need to apply full power for full speed ahead! The width also allows just enough room to fit the very comfortable, and ergonomically correct Evo II bucket, essential in getting the most out of you!

LENGTH: 21' 1" / 642 CM - WIDTH: 17.5" / 44.5 CM - WEIGHT: 15KG -12.5KG - PADDLER WEIGHT RANGE: 155-255 LBS / 70-115 KG - LEVEL: HIGH END

SCORPIO MK2

P&H Scorpio MKII in our latest CoreLite X construction; a whole new generation of performance sea kayaks is coming.

CoreLite X is both significantly lighter (a reduction of between 2-3kg dependant on model) and exceptionally stiffer than our standard CoreLite construction, all whilst adding to the durability too!

VAJDA | VOYAGEUR

The Voyageur is Vajda's new intermediate touring model K1. A little more stable than the Civet Cat 51, it accommodates a wide range of paddling abilities; from beginners seeking a more stable platform from which to develop their technique, to experienced paddlers looking for more stability in challenging conditions. It is designed according to International Canoe Federation Touring specs and also meets ICF Para Canoe rules. It is popular not only among para athletes but also adventure and marathon racers for its speed and maneuverability.

VAJDA | SPIRIT

This is a great boat if you want to enjoy a sprint boat with stability for comfortable paddling. It is a modern boat with sharp lines & is ideal for intermediate paddlers or masters. The Vajda Spirit is designed to allow those paddlers that find an elite level K1 a bit unstable in the wash and bump of a race. Spirit paddlers find they can hang with the pack due to the extra stability allowing more power to be put into forward motion instead of brace strokes. The extra stability allows the paddler to concentrate on the job at hand and not focus on whether they may fall in during a race.

EASTPOLE PADDLES ALEUTIAN PADDLE

HIGH-END

The Aleutian paddle is another traditional paddle, originally coming from Alaska. Compared to its better-known Greenland "brother", the Aleutian paddle is normally 10 cm longer and its blade-shape supports more powerful paddling-style. So with the Aleutian paddle you can easily make strokes that are as powerful as with any euro-bladed paddle. But it is still silent, soft on your muscles and joints and comfortable in your hands.

LENGTH: 220-240CM - LEVEL: HIGH END - MATERIAL: WESTERN RED CEDAR

EASTPOLE PADDLES LAMINATED GREENLAND PADDLE

HIGH-END

This traditional west-Greenland paddle has mild "shoulders" on transition from loom (shaft) to blades. As a finish, paddle is treated with oil so it feels very natural and warm in your hands. Mild but yet powerful, Greenland paddle is a perfect choice for expeditions and long-distance touring. And it helps you to improve your technique - rolling, sculling and bracing have never been easier. For 2016, this paddle is available with hardwood (ash) blade-tips for improved resistance to wear and tear.

LENGTH: 210-230CM - LEVEL: HIGH END - MATERIAL: WESTERN RED CEDAR
