Men's Riptide Jacket

REDEFINE RECREATION

Even the most laid-back adventures risk facing unpredictable elements. The newly updated Riptide is a fully featured splash jacket that gives recreational paddlers advanced waterproof-breathable protection. A kayak overskirt and neoprene wrist gaskets keep water out, and the articulated hood and half-zip neck make adapting to conditions easy. Jet-boiled coffee on a rocky beach just tastes better, and in the Riptide, you'll never wish you had stayed on the couch.

Women's Riptide Jacket

EDITO

It never fails to amaze us how quickly paddlesports transitions from a hobby to a defining aspect of our identity. There are transitional stages where paddling is a sport or a passion, but for many of us, it will eventually change who we become and how we see the world.

As we delve deeper into learning, this passion of ours can quickly rule our lives: dictating what we do when (when the wind is up, the waves are in, or the rivers are running, we go), who we connect with most frequently, and where we spend our free time and income.

In the past few years, our industry has seen incredible growth. There has been an influx of numbers and paddlesport participants, yes. There has also been growth within our industry as we took the last few years to reflect on our strengths and weaknesses and consider anew what we want for our future and who we count as part of our community.

By advocating for better access to the outdoors and continuing to develop adaptive boards, boats, and paddles, we welcome more with disabilities to the water. We have ongoing work to continue to develop education and access on this front, but our industry will be stronger for it.

In extending our perception of where paddlesports can happen, we're looking at urban centers, extending paddlesports to new communities, including ethnic minorities and indigenous peoples. In our efforts to become more inclusive, we have welcomed new people and better celebrated all those already on the water.

We discovered new ways to enjoy our favorite spots through the growing rise of foiling and met new people through the increasing crossover of the paddlesport communities with wind and surf cultures. Meanwhile, the rising popularity of products like packrafts and fishing kayaks leads us to new waters.

With global environmental crises such as climate change continuing to impact our daily lives, we are coming to terms with the importance of the waste we generate and how easy it is to take finite resources for granted. As our awareness of our impact grows, we become better consumers, demanding products and packaging that can or has been re-

cycled. We want products that think responsibly about our environment. We become better consumers by learning to differentiate between what we want and need. Globally, many have already tightened budgets and tried to buy less, prioritizing the essentials in the face of inflated living costs.

Here's the thing about paddlesports, though. It is essential. Essential to our mental health, our overall well-being, and our ability to be the best version of ourselves. No matter how we use our paddles, our chosen disciplines continually push us outside our comfort zone. They showcase us at our best but never fail to humble or remind us where we can grow.

This year at the Paddle Sports Show, we celebrated our industry and all we have accomplished together. We welcomed new companies and saw innovations in materials, product performance, design, and safety, many of which are highlighted here in the pages of our annual Paddler's Guide. We connected with old friends and forged new partnerships. We reminisced over old times and made plans for new adventures. We attended conferences that made us think harder about our role as individuals and the influence we can have when we work together. We took another step forward as many pledged to work towards creating a circular economy. We acknowledged the challenges we face next and strategized how to tackle them. We head into the next season with plans to build on all we have learned over the past three years, knowing that the next time we see each other, the cycle of learning and sharing and growing will begin again.

For us, every paddling season starts with our annual Paddler's Guide. A collection of new products and classic favorites, displayed free of charge, as ever. As you flip through these pages or scroll online, we hope what you see gets you excited for the season ahead. We hope it gives direction for where and how best to spend your time, energy, and resources to improve yourself and your paddlesport community. We hope it makes you think. For old hats, we hope it makes you remember why we fell in love with paddlesports in the first place. For new learners, we hope it helps welcome you to this new sport, hobby, passion, or way of life.

INTERVIEW: GERO PRIEBE

The Hobie name has long been synonymous with water sports, bringing to mind bright California beaches and sun-kissed surfing or sailing enthusiasts. With the advent of the MirageDrive, a pedal propulsion system, Hobie burst into the paddlesports market in the late '90s and soon became a major player and influence. We caught up with Gero Priebe, Hobie Kayak Europe Sales and Marketing Manager, to learn more about this iconic brand and its goals for the future.

©Hobie kayaks

PGM: Paddlers Guide Mag: Gero, the name Hobie is iconic, nearly synonymous with watersports. Hobie is a surfing brand, a sailing brand, a kayaking brand. What is the driving force behind it all?

Gero Priebe: I am glad you reference Hobie as a surfing brand. Our founder, Hobie Alter, modeled everything the surf lifestyle and watersport industry stands for today—having a great time in, on, and around the water. Hobie's roots lie in surfing and waterman culture; this helped strengthen our sailing brand, and is now doing the same for kayaking. Everyone at Hobie believes in our authentic, grassroots culture. We do what we love, and we love what we do. From surfboards and world-class catamarans to revolutionary pedal kayaks and stand-up paddleboards, Hobie is driven by a passion for delivering the most advanced, enjoyable, and accessible watersport products available.

PGM: What role do paddlesports play in Hobie's income and strategy?

GP: Paddlesports represent over 90% of Hobie's business these days. Our MirageDrive pedal system redefined kayaking and made Hobie the leader in high-end pedal kayaks, shifting our identity from a surf and sailing company to a major kayak manufacturer. The booming paddle sports sector and the fast-growing market for

**"ONLY A BRICK AND MORTAR
RETAIL STORE CAN CONVINCE
THIS CUSTOMER TO MAKE A
BETTER CHOICE."**

light, car top-able boats will weigh majorly in Hobie's strategy and identity moving forward. We're as driven as ever to bring something new to the paddle sports market, which has always been our goal.

PGM: Is Hobie Kayak Europe a subsidiary or an importer?

GP: Hobie Kayak Europe has always been an independent distributor/importer of Hobie's kayak range in Europe. Last year in November, Hobie Kayak Europe was sold to Hobie Cat Company. Since then, we have been a full subsidiary and cover the entire Hobie kayak product range, minus the sailboats. This has been an important step for Hobie in Europe. Combining the whole product range – kayak, paddleboarding, surf, fishing – under one roof bolsters Hobie's strategy to be the leading supplier of watersport equipment and the number one lifestyle brand in Europe while providing a clear and consistent identity for the Hobie brand in Europe and beyond.

PGM: What has been your experience during the whirlwind our industry has seen in the past few years? What do you anticipate for the future?

GP: The trend and rise of interest in solo outdoor activities, such as paddle sports,

fishing, camping, etc., started before the first Covid restrictions were introduced. Luckily, our industry took advantage of the crisis, which gave – and this wasn't anticipated initially —the development of an outdoor lifestyle and solo outdoor sports the final nudge. The industry has witnessed a rise in demand for our products and lifestyle. We all want to get out kayaking, fishing, and sailing and make great memories. This won't change. Yes, the surge of consumer interest shows signs of cooling down, and next year might be difficult for our industry, given the energy crisis and geopolitical situation. However, demand is still higher than it was before the pandemic. That will not disappear. I am, therefore, very optimistic about the prospects for our industry.

PGM: What are Hobie's market shares in paddlesports on the world and European levels?

GP: Without diving too deep here, Hobie has the world's number one-selling fishing kayak, which is still the Hobie Mirage Outback. With the Outback and our MirageDrive, we have dominated the kayak fishing industry for 20 years, a growing, fresh new sector within paddlesports.

PGM: Hobie has found success in the high-end side of the market and in welcoming newcomers. What's the secret recipe? Added value products, comfortable margins, great user experience?

GP: There are many reasons for success, and I agree with all the ingredients you mention. However, our passion and customer experience are by far the most important. For any product that Hobie creates, the people who create it want it for themselves. The engineers working on new product designs and updates make them for themselves and continue developing products by using them. That is true across every Hobie product category, but it has an especially big role in kayak fishing. Take the MirageDrive, Hobie's hands-free pedal drive. It was first introduced in 1997 and has undergone several rounds of refining to meet the needs of Hobie customers better.

PGM: Tell us more about the Mirage iEclipse, which you unveiled this year at the Paddle Sports Show

GP: The original hardboard Eclipse was the world's first and favorite stand-up pedalboard and a prime example of Hobie's ability to innovate new ways to enjoy the water. The Eclipse was a big hit with those who enjoy exercising outside and rentals looking to offer guests a unique experience. The new iEclipse, our inflatable version, offers remarkable rigidity and the same performance as the Eclipse in an ultra-lightweight and portable package that can fit in the trunk of a small car. Of course, the new hardboard version weighs only 20 kg (44 lb) and is also easy to transport.

PGM: How do you manage copycat products coming from Asian manufacturers? Is there anything to be done besides innovating anew

GP: Innovation will keep us ahead of the copycats. We are aware of their existence, but fortunately, things are not to the point where we view them as competition in Europe. I have never talked to a customer who said they bought a copy and were happy with it. It is always, "I wish I bought the real deal." This customer may still purchase a Hobie and experience a pedal system as it should be. I am concerned about those who have negative experiences with a non-performing pedal system and decided against kayaking as a result. We have to meet with dealers, talk to po-

"THE BOOMING PADDLE SPORTS SECTOR AND THE FAST GROWING MARKET FOR LIGHT, CAR TOP-ABLE BOATS IS CLEARLY THE MAJOR PLAYERS FOR HOBIE'S STRATEGY MOVING FORWARD."

tential new customers and get them into our boats, or at least give them the option to try. E-Commerce only does not help here. Only a brick-and-mortar retail store can convince customers to make a better choice. .

PGM: Kayak fishing is gaining popularity in Europe, and Hobie has played a big part in this. What significant differences do you see between the US and the European markets?

GP: Kayak fishing models and trends in Europe are the same as those in the US but run a few years behind. Where there was a higher interest in smaller kayaks a few years ago in Europe, we are now seeing a growing demand for bigger kayaks, such as our flagship, the Hobie Mirage Pro Angler 14 – 360. I am positive that we will reach a similar level here in Europe sometime in the future.

PGM: You have taken a very active role in the development of Kayak Fishing in Europe through the sponsorship of events and the creation of a global tournament series.

GP: Tournament fishing has become a very serious part of the sport and is absolutely helping to grow the business. Over the years, we have established a highly reputed tournament system spanning the globe that became the blueprint for events

in Europe and other parts of the world. Most rounds end up in the Hobie Fishing Worlds, held first in Australia in 2011, with nine two-man teams representing the US, Singapore, Thailand, South Korea, and Australia. In 2012, the Worlds moved to Texas, and twice as many contenders took part, including a European team (which included me). In 2022, the Hobie Fishing Worlds 9 returned to Amal, Sweden, with 42 anglers representing 18 countries. All the anglers qualified via local events across

the globe. One of the biggest qualifying rounds in Europe is our company-sponsored (along with our partners in fishing) Hobie Fishing European Championships. Since 2014, we have hosted events in different European countries: France, the Netherlands, Italy, Sweden, and even Serbia.

PWM: How does the tournament work? Is it entirely run by Hobie?

GP: Kayak anglers from all over Europe compete in the European Kayak Fishing Tournament, a Catch-Photograph-Release format, to be crowned European Champion. The angler with the largest total length wins. Scoring has become easy over the years. Instead of digital cameras and paper, anglers now use a tournament scoring app that provides a live leaderboard, letting anyone interested follow the event and tournament scoring live. It takes a lot of effort, passion, and a well-connected global team to organize events of this magnitude. Our dealers and local partners put a lot of hard work and effort into events during the season to help put kayak tournament fishing on the map.

PGM: What strategy can we expect Hobie to take in 2023/24? Will you continue to lead the charge, bringing new products and ensuring you are ready when demand increases?

GP: We need to promote our sport to a wider public as a sustainable way of spending time outdoors and living a healthy lifestyle. It's a cool sport, and we all do well to focus on the actual experience of paddling, fishing, pedaling, and kayaking. Getting more people to have a great time in on and around the water with Hobie. That's the main goal for 2023/24!

PADDLER GUIDE.com

The one-stop shop website for paddlesports gear addicts

WHAT'S AROUND THE CORNER?

A LOOK AT WHAT FULLY STOCKED SHELVES AND RISING PRODUCTION COSTS MIGHT MEAN FOR PADDLESPORTS.

Despite the turbulence of the past two years, paddlesports is poised to continue a positive trajectory. For the savvy shopper, there might be deals on the horizon.

The past three years have seen continued growth in paddlesports and solidified our position as an industry capable of overcoming challenge after challenge. The uncertainties of Covid were met with ongoing global turbulence. Zero Covid regulations continued in China even as the rest of the world returned to pre-pandemic norms. Russia invaded Ukraine, contributing to rising prices and energy and labor shortages, driving production costs up and straining finances. The United Kingdom cycled through prime ministers and left the European Union while American politics became increasingly divisive. When the industry saw its biggest increase in popularity in nearly two decades, retailers around the globe faced the surge in demand with empty shelves. We enter 2023 with fully stocked shelves, yet demand for paddlesport products is decreasing from pandemic highs, and production costs and inflation remain high. Nevertheless, a hesitant optimism for the future continues to buoy the industry.

Notably, for the paddlesport industry, constraints on supply appear to be easing, even if they are not yet back to the pre-pandemic normal, writes JP Morgan. "For example, Shanghai-to-Los Angeles ocean freight rates are down 80% from the beginning of the year and 83% from the peak in the second quarter of 2021, but still 25% above the 2010-19 average." Shipping rates are predicted to normalize by 2024 and will continue to drop throughout the next decade. (<https://www.port-technology.org/>)

Inflation skyrocketed in 2022, reaching its highest rate in decades and raising the cost of living essentials, alongside luxury and leisure items, in nearly every country worldwide. As the year came to a close, inflation rates began to stabilize. Predictions call for inflation rates to continue declining globally throughout 2023 but remain painfully high overall. Consumers feel the pressure as they face rising rent, food, and energy costs. With many rethinking their spending habits, where does this leave paddlesports?

In the short term, do not be surprised to see sales in the paddlesport industry that, while not record highs, will not be record lows, either. "Covid boomers," newcomers who discovered paddlesports during lockdowns, have increased user numbers, and many are about ready for an equipment upgrade. Borders are open, but travel remains costly, and low-cost activities close to home maintain appeal.

Though energy and raw materials will remain expensive for some time, keeping production costs high, brands have used the last two years to revamp and regroup, working towards products that are more sustainable and more efficient and environmentally-friendly production practices. Many have hinted at projects in the works, and we can expect to see industry-wide releases of new or updated products in the next few years.

©Unsplash/T. Barbuviya

"IN THE SHORT TERM, DO NOT BE SURPRISED TO SEE SALES IN THE PADDLESPORT INDUSTRY THAT, WHILE NOT RECORD HIGHS, WILL NOT BE RECORD LOWS, EITHER."

China lifting Zero Covid restrictions may bring the biggest significant changes for 2023, alleviating the strains and pressures on the supply chains and labor forces. As conditions in China normalize, it may re-open the market to brands reliant on out-of-house production and open new markets altogether in the long run.

In China, the middle class is on the rise, with 163 million currently representing nearly 14% of the country's population. Stringent lockdowns have left people frustrated and seeking relief from rules, testing, and the city. With a public sector already pledging to increase the infrastructure and resources needed for outdoor activities and a growing youth and social media culture, we can anticipate a boom of interest in outdoor sports as Covid normalizes.

While the market won't maintain its pandemic growth rate in Europe and North America, predictions call for it to remain above pre-pandemic norms. It might not be on the forefront of consumer minds, but the next year or two will continue to be an excellent time to be involved in paddlesports. With dropping demand, overstocked shelves, and more new products on the way, don't be surprised to see a sale or two in the near future—and if we're lucky, prices that will, at the very least, hold steady.

While we remain optimistic, if the past three years have taught us anything, it's that nothing is guaranteed. The best way to support our industry remains what it has always been. For consumers, it is buying smart, but buying, nonetheless. For manufacturers, it means producing smart, bringing products to market that people need that show genuine improvements from year to year. There are still difficult times ahead, and people likely won't buy what they don't need. It is up to us to keep paddlesports appealing and feeling essential to people's lives, to remind and sell not just products but the escape getting out on the water offers and the version of ourselves paddlesports allows us to be.

RTMKAYAKS.com

ROTOMOD SAS - Zi. Jean Malèze - 47240 Bon Encontre - France

CLOSING THE DIVERSITY GAP

For years now, it has been widely agreed that prices need to increase for the industry (and our dealers!) to survive. Those prices are now up, but are they the answer to the initial problem?

The past decade has seen a growing desire to make paddlesports more inclusive and accessible to different communities, especially minority populations. Concentrated efforts have seen increased diversity in the imagery used to portray paddlesports. Bringing that diversity to the water requires actions that support our changing perceptions of what the “typical” paddler looks like and what qualifies as the outdoors. We must all continually ask, “why isn’t my paddling community as diverse as it could be?”

The belief that those interested in the outdoors, and by extension, recreational paddlesports, are largely middle-class and white is a self-fulfilling prophecy. By changing the imagery used to portray paddlesports, the industry is working to normalize Black, Indigenous, and People of Color (BIPOC) participants and combat existing stereotypes. Even as the desire to welcome BIPOC communities to the water change, significant hurdles to participation and a sense of feeling welcome remain, including prohibitive financial costs, fear for personal safety, or a lack of access to gear or paddlesport education.

Helping minority populations feel more welcome in paddlesports requires ongoing dialogue, as no two communities are the same. Partnerships with existing organizations, foundations, and businesses working to close the diversity gap can amplify their efforts and impact. NRS has seen success with this strategy through its LEAD program, started in 2021, which supports existing initiatives with resources from gear to financial grants and education while helping increase their reach and platform on a global scale. The creation of internships and jobs for minorities in retail, education, or design can also help diversify paddlesports from the inside out.

In Europe and the US, facilitating programs that bring paddlesports to underrepresented communities, rather than waiting for them to discover us, remains vital if we genuinely want paddlesports to become more representative of society. The International Canoe Federation already runs paddlesport education and talent identification programs, specifically in Olympic disciplines, to countries and regions where infrastructure does not exist in efforts to drive this change.

It is a widespread belief that creating a connection with nature contributes to efforts to protect and preserve our wild places. Still, not all have easy access to alpine lakes, the open ocean, or remote river canyons. Embracing initiatives and products that get people on the water in highly populated areas, celebrating urban waterways, and supporting businesses and facilities that rent gear all help make paddlesports more approachable for a wider range of users and incomes. This helps open new markets and welcomes previously excluded populations by sharing the cost burden and the need to travel.

If we expand our definition of paddlesport participation, we might be surprised to discover who we already find on the water. “Across the board, a lot of BIPOC folks paddle, just not in the paddle sports/recreation community,” reminds Paul Robert Wolf Wilson, Klamath Tribal Member and Chief Storyteller for the non-profit Rios to Rivers, which works to inspire river protection worldwide through work with indigenous youth. “My people, we paddle canoes.”

**“WE MUST ALL CONTINUALLY
ASK, “WHY ISN’T MY PADDLING
COMMUNITY AS DIVERSE AS IT
COULD BE?”**

Indigenous populations worldwide have deep roots in paddlesports and ties to the world’s waterways. However, they and their legacy have been largely overlooked or dismissed even as their designs are appropriated for recreation and sport. This omission has undoubtedly been to our detriment. In countries such as Ecuador, efforts to preserve free-flowing rivers and prevent environmental degradation have found indigenous peoples to be powerful allies.

Says Rios to Rivers curriculum director Ashia Wolf-Wilson, “Tribal persons are linked to the lands they come from. When we talk about going out on our waters, it’s personal, and it’s an intimate relationship. In my eyes, I don’t think of kayaking just as a sport, it’s revitalizing connection and people.”

It is well-proven that spending time in nature has physical and emotional benefits, including decreasing blood pressure and stress hormones and helping with cognitive function and overall well-being. A commonly cited virtue of paddlesports is the sense of community and identity they bring. In New Zealand, a traditional Māori style of outrigger canoeing known as Waka Ama is gaining popularity amongst younger populations. “The sport’s strengths and attraction for many of its participants seem to lie in its inclusiveness, accessibility, a firm grounding in Māori and Pacific culture and its focus on hauora (well-being),” writes Sport New Zealand.

Making paddlesports more accessible to indigenous and ethnic minority populations is crucial for the health and growth of our industry and our environment. It is also vital for our health, well-being, and sense of self. By creating space for other voices and experiences, especially those of color, we help our industry and environment have a future. We also might directly contribute to a better, healthier global society.

TOO CLOSE FOR COMFORT

DRAWING THE LINE BETWEEN INSPIRATION AND IMITATION

This fall, brands came under fire for designs that felt a little too familiar. While far from the first (or last) time a “copy cat” call sounded, it raises the question, where do we draw the line between inspiration and imitation? How can we, as an industry, support innovation and unique design?

Innovation for new products comes from many places, with inspiration found through desire or need, a problem we attempt to solve, or pre-existing concepts. Imitation, by contrast, occurs when you directly copy an existing solution to a problem rather than develop a unique idea. Drawing the line between inspiration and imitation can be surprisingly difficult. For Matyas Hilgert of Hiko Sport, the designer's intention is critical. If the goal or essential question driving product development is, “Can we improve what is already out there?” and the answer is yes,” he argues, “then by doing so, you are inherently unique.”

Hilgert reminds us that appearance is only one way to differentiate products. Product performance, functionality, affordability, or sustainability can differ greatly from designer decisions, even if the base aesthetic is similar. In the apparel sector, many brands purchase raw materials from the same sources, placing additional emphasis on product design and quality. Two garments might look similar, but do they perform the same? Do they achieve the same goals in the same way? Frequently, the more advanced or technical a product, the more opportunity for differentiation. Simple splash tops can be more similar than different than, say, dry tops or shorts.

Stand-up paddleboards are another area where similarities can appear to outweigh unique designs, especially inflatables. Scroll through any Paddler's Guide: Most cruiser boards are 10'6"-10'8" long, 29"-32" wide, and 6" tall, with subtle nuances from rail placement and rocker profile to fin boxes, top sheet, and the materials and constructions used.

Materials are frequently a driving factor in innovation and product differentiation, but it is a never-ending game of catch-up as what was groundbreaking becomes standard. Take, for example, drop stitch. In barely a decade, drop stitch transitioned from rarity to the norm for quality inflatables. In 2020, Starboard SUP, among others, debuted inflatables with a woven, not knitted, drop stitch core for lighter, stiffer, stronger, and more responsive boards. More companies are quickly following suit. Soon, a woven drop stitch will become the industry standard until the next innovation in materials or construction is found.

Not all brands have the resources to lead innovation, and no single brand will ever be the sole innovator in their field. “Everyone takes some influence from other sources; it's natural to do so in design. The difference is how close your ideas are to your peers versus sources that are a few steps removed,” argues Palm Equipment's Paul Robertson. Robertson, like many, frequently looks to other industries for ad-

vances and ideas to adapt to paddlesports. “Looking sideways” is a critical source of inspiration. But adapting influences differs from copying a product, especially one within the industry.

The paddlesport industry is small. Most major players in individual sectors are friends who have been in the game for many years. Rather than relying on patents or trademarks, many believe in developing products that are substantially different rather than substantially similar as a matter of respect. Yet, as Hilgert points out, “I can respect someone by staying far away from their design. Or I show someone respect by building upon their idea—basically gratifying that the idea is a good one.”

To quote Oscar Wilde, “Imitation is the sincerest form of flattery.” However, the second half of his statement is often left unsaid: “that mediocrity can pay to greatness.” A lack of originality suggests not understanding the problem you are working to solve. Take knock-off products, which bring the potential for poorly-made items to fail, endangering users. Gero Priebe of Hobie Kayak Europe points out that even when not life-threatening, a negative experience with a knock-off can turn potential enthusiasts away from the sport. Priebe views supporting brick-and-mortar stores with knowledgeable sales teams as a key way to educate consumers on choosing quality products and the right products for them.

Understanding the problem you are working to solve. Take knock-off products, which bring the potential for poorly-made items to fail, endangering users. Gero Priebe of Hobie Kayak Europe points out that even when not life-threatening, a negative experience with a knock-off can turn potential enthusiasts away from the sport. Priebe views supporting brick-and-mortar stores with knowledgeable sales teams as a key way to educate consumers on choosing quality products and the right products for them.

Ultimately, we need new materials, ideas, and vision to grow as an industry. “[Borrowing] heavily from others stifles innovation and ultimately reduces consumer choice, which is not good for anyone in the long run,” reminds Robertson. Rather than investing time and resources into substantially similar products, we are better served by ideas inspired by our needs and experiences. While imitations can drive innovation, we must reward those taking on the risk and expense of R&D to set the bar. We reward them through industry awards, such as the Paddle Sport's Show Product of the Year Awards, which annually showcases new innovations across market sectors. We reward them by being knowledgeable about our history and using that knowledge to educate consumers, encouraging them to support the brands putting in the work.

It's up to all of us to find the line and keep moving the standard forward. As we draw inspiration from each other, the goal should always be to do something better than it's been done before.

RISING ABOVE THE REST

MOVE OVER SUP. THERE'S A NEW BOARD IN TOWN.

Since the beginning of the SUP industry, market participants have wondered how long the popularity of stand-up paddling will last. Are we nearing the end, or will foiling's rise renew enthusiasm for the stand-up market?

From June 2020 to March 2022, paddleboard sales surged as COVID lockdown measures and travel restrictions affected lives on a global scale. Stand-up paddling, with its accessibility, versatility, and gentle learning curve, became a go-to for fitness and leisure while maintaining social distance.

By the end of 2022, the market had become flooded with paddleboards, now found in specialty shops, big box retailers, and even supermarkets. Yet, with travel possible again and the pressures of normal life returning, the influx of participants and the purchase of new boards soon waned. The future of SUP seemed to lose its luster until it seemed that suddenly, foils were everywhere.

Foils have earned accolades for their ability to unlock potential in a wide range of conditions, from flat waters to chop, and for their unparalleled glide. While foiling uses a similar platform to paddleboards, the sensation they generate is something else entirely.

"You get the serenity and the stability of stand-up paddling with the speed and extended glide time of foiling. Though it sounds relatively simple, the upgrade of the feeling is so intense that we don't really have words to describe it," writes LiftFoils on their website.

Like stand-up paddling, part of foiling's growing popularity comes from its versatility. "I love the versatility of the sport," says Indiana Paddle & Surf Co. board developer Gunnar Biniasch in an interview with North Kiteboarding. "You can do so much with a foil: wing, windsurf, prone, paddle, dockstart pumping, and kite." A benefit of the increasing cross-over with wind-based sports is getting foil devotees to pick up a paddle on the water on calmer days, especially with boards like the Fanatic Bee or Starboard Hyper Nut, which make multiple sports accessible in one board.

Where foiling differs greatly from paddleboarding are accessibility and ease of use. A large part of paddleboarding's popularity came from its intuitiveness. Users didn't need to be experienced or paddle-fit to enjoy the day out. Foiling, which generates momentum through "pumping," has earned a reputation as a more technical sport than stand-up paddling, or at least one that requires more buy-in before becoming proficient. For Aztron Founder Tony Yeung, this doesn't disclude foiling as a point of entry into the SUP market. Rather, it speaks to the need to develop and market beginner-friendly foil setups that are affordable and easy to use, of which brands are beginning to take note.

"Easier to use is definitely the main driving force for innovation on foil. On one side, more and more experienced SUP paddlers are wanting more excitement, so there is a need for beginner's foil."

**"WHERE PADDLEBOARDING
IS ACCESSIBLE, FOILING IS
ASPIRATIONAL."**

Foiling's technicality benefits the paddleboarding industry by creating a market for a high-end, added-value product that will help keep sales within the industry and generate demand for quality products that maintain higher margins. Where paddleboarding is accessible, foiling is aspirational. As such, it opens the doors to a market driven by different interests than the original paddleboard user, which isn't necessarily negative. Though people of all ages, backgrounds, and interests can find a reason to foil, the market will likely remain niche enough that it is difficult to imagine non-specialty retailers carrying or selling foils en masse.

Alongside new users and retail opportunities, foil's rising popularity allows brands to differentiate themselves in a market saturated with similar products. SUP foils are gaining traction in the surf, flatwater, and racing scenes, driving the innovation of foil-specific boards that feature advances in construction and design. Innovations will continue as brands work to make foiling more accessible and affordable. The push for higher levels of performance, from the ability to generate higher speeds to lighter-weight foils that offer better maneuverability, will also drive innovation and demand for the high-end models.

As foils improve, the more users they will attract. Regardless of how people learn to foil, a paddle is often a preferred method to generate the speed and stability needed to begin pumping or catch a wave. "SUP foiling is still ALL about your paddle. It's your friend, if you let it be, as well as your main source of propulsion. Choose a good one and learn how to use it well," advises Foilshop.co.uk.

Foiling may never match paddleboarding in popularity or growth rate, but it doesn't have to. As the sport grows, it will continue to generate excitement and interest, forcing consumers to look at paddleboarding anew. Ultimately, the foil bubble, too, will burst. Everything does. For the time being, the momentum is set to continue, generating new SUP users, sparking innovation and creating new revenue streams. We might as well enjoy the ride.

OPEN WATERS AHEAD

WHY IT'S TIME FOR THE INDUSTRY TO EMBRACE ADAPTIVE PADDLING

Rather than focusing on the limitations of those with disabilities, it's time for the industry to take note of their ability to participate in paddlesports.

In 2016, paracanoeing debuted at the Paralympic Game in Rio de Janeiro, Brazil, putting an international spotlight on the benefits of getting people with disabilities out on the water. Including a Va'a class, a Polynesian-style outrigger canoe, in the 2021 Tokyo Paralympic Games signifies a broader trend: the paddlesport industry is on board to promote and grow adaptive paddlesports. It's about time.

Though the physical and mental benefits of spending time on the water are well documented, disabled paddlers have been largely neglected by the paddlesport community. These are not small numbers. According to the UN, at least one billion people worldwide have a disability, with control of \$1 trillion in annual income. Even a portion of those resources could have long-lasting benefits for our community and environment. If we want to continue growing adaptive paddlesports—and we do—we need to focus on developing gear, public perception, and access to the outdoors.

Adaptive Gear

26% of people will be affected by disability at some point. Many suffer from arthritis, joint injuries, and other health problems. Adaptive equipment helps them enjoy getting out on the water, too, reminds Bending Branches in a blog post titled "Adaptive Kayaking and Canoeing Get More People on the Water."

"For me paddling is freedom. Freedom to exercise or explore in the same way an able-bodied person would," says adaptive athlete and ICF athlete representative Patrick O'Leary. "I can paddle in a group trading washes and unless people know me they have no idea what's different."

The natural stability of paddle craft has largely left adapting gear up to individuals. However, as more disabled paddlers join the ranks, products designed to take the needs of disabled users into account from the start are increasing, such as the Do Sport Trident Ability Board, seen at the 2022 Paddle Sports Show. The Trident Ability Board combines the stability of catamarans and outriggers with the accessibility of paddleboards in a wheelchair-friendly design that accommodates two people, one seated and one standing.

The ama, or float, used to stabilize outrigger canoes is a highly adaptable and cost-effective way to make paddlesports safer for people with paralysis, spinal cord injuries, or limited coordination. Smaller-scale adaptation can be equally impactful: High-visibility tape or paint on paddles benefits the visually impaired, and mount-supported paddles or grip aids can make paddling more accessible and enjoyable.

Perception & Education

While adaptive equipment helps facilitate an entry point into paddlesports, public perception of disabilities is an ongoing challenge. "Perception is always an issue. People with mobility issues can be perceived as at risk around water," explains

O'Leary, who is an amputee of the leg. "Careful thought is always needed but in most cases a safe method of paddling is available."

ICF Vice President Lluís Rabaneda views perception as a key area where organizations and federations can make a difference. "Awareness is the key hurdle to overcome. We need to continue educating every level of the paddling communities and give the tools to have an easy inclusion of the adaptive paddlers."

Numerous educational resources on adaptive paddling exist, shared through private organizations and national and international federations. British Canoeing, which uses the term Paddle-Ability to refer to all paddlesport activities for disabled people, lists information on "Paddle-Ability" approved programs training, access, and clubs on their website. They remind us that while working with those with knowledge and experience in adaptive-specific paddling strategies is hugely helpful, much can be gained by including adaptive paddling activities in the primary sector rather than separating them.

"Society is moving toward a more inclusive view of itself, where all persons of varying abilities can contribute," says Rabaneda. He continues, "Paddlesports and the paddlesport industry needs to see itself as an active participant in this movement. This means working to increase participation across different channels such as tourism, club, elite levels, or during rehabilitation."

Access to water

Increasing participation across any channel relies heavily on access to water and outdoor spaces, a significant challenge many non-disabled people have never considered. We should, as accommodations that build universal outdoor access, such as boat ramps or improved signage, benefit the entire paddlesport community. Supporting existing initiatives to improve water access is maybe the best place to start concentrating efforts to make paddlesports more accessible.

"Not only are experiences in nature crucial for all human beings, it doesn't take that much to make days on the water possible, says Canadian-based organization Access Revolution Founder Jordan Kertan. Through Access Revolution, Kertan, a recreational therapist, promotes and sells products that improve experiences on and access to the water. She continues, "It takes innovative equipment, a community that supports the vision and the dream to make it happen, and participants who are keen to get outside and enjoy nature together."

WHEN LESS IS MORE

HOW SIMPLIFIED PRODUCTS ARE HELPING PADDLESPORTS WORK TOWARD A CIRCULAR ECONOMY.

A surprising trend is on the horizon: stripped-back products focusing on versatility and durability. Is this the first step to reaching a circular economy?

Being a leader in the paddlesport industry often comes with a dark side: The more we grow, the more waste we generate, and the bigger our environmental impact becomes. It is a reality many are working to change not as an afterthought but from the get-go. "We need to start taking ownership not only for cleaning up the mess but for reducing the mess in the first place," advocates Soul Waterman owner and designer Corran Addison.

At a conference on the Paddlesports Footprint at the Paddle Sports Show in Lyon this fall, environmental consultant Henri Bourgeois Costa spoke of an imagined future with a circular economy where brands took full responsibility for the life of their products, from the materials used in their manufacture to what their end of life looks like and how a product is disposed of. Drawing on the example of Technica, who recently started an initiative to recycle or repurpose the many (17+) materials found in most ski boots, Costa reminded us that shifting the standards of an industry can start with one push.

Durable and versatile products have long been a priority in paddlesports, from apparel and accessories to kayaks and paddleboards. As we refine and reduce our long-term environmental footprint, we expect to see more companies develop products with design innovations focused on durability, recyclability, reparability, and need. It seems simple, but thoughtful design provides a crucial foundation for avoiding products that spend more time in a landfill than on the water.

Peak Paddlesport founder and designer Pete Astles sees product design, including the materials used, as critical. While innovations in the past have focused on using and incorporating recycled materials, "The key now is to design products so that they can be deconstructed and recycled at the end of their usable life. We must all push our suppliers for... components that can be reused, repurposed, or recycled at the end of the product's life."

Unless products can be separated and compacted, the costs and impact of shipping products for recycling are prohibitive and counterproductive. As Costa's Tech-

nica example highlights, separating products into different materials and repurposing them takes thought and effort. There also needs to be a strategy to develop infrastructure and consumer buy-in.

"Ideally, some industry-wide cooperation is required on these items along with consideration of how this can be achieved more easily during the design stage of any product," points out Palm Equipment's Paul Robertson. Astles agrees, advocating for the infrastructure provided "through clubs, dealers, and our own businesses so that our products can be easily returned for recycling and repairs."

Another solution is partnering with organizations such as TerraCycle, which provides free recycling solutions for typically hard-to-recycle waste and maintains large-scale recycling programs in several countries. One program they currently offer in partnership with surf brand RipCurl collects and recycles old wetsuits, while The TerraCycle Global Foundation works to remove plastic waste from waterways.

While it would be incredible if everything could be made with renewable or recycled materials, they don't always provide the durability, longevity, or safety required by paddlesports. For Jochen Lettmann of Lettmann Kayaks, downcycling materials is important, but the best strategy is to encourage the use of products as long as it is safe. Lettmann, whose boats and paddles can last decades, promises customers, "We will do our best to repair your boat or paddle as long as it is possible."

Agrees Matyas Hilgert of Hiko Sport, "Repairability is another way of very effectively extending product life span. Yes, it is not sexy because the word "repair" signals damage, but if Patagonia made the program successful so should we." Hiko has begun small steps towards this goal, including a repair kit with their dry gear and working to educate customers on the need to repair rather than replace.

Being fully responsible for the products we create requires being honest about the need for new products and educating customers to think the same way, even if it means fewer sales in the short term. It requires choosing materials that will last as long as possible with as minimal an environmental impact as possible. It requires getting creative. There is no shortage of opportunities for continued innovation as we work towards this goal.

"Every environmental gain is also a gain for our company, especially regarding the recycling of materials," says Tahe Outdoors in a 2022 interview with Boardsport Source. "The ultimate goal would be to be able to recycle all our boards at the end of their lives, which should be at least ten or twenty years."

Whether through longer-lasting products or products designed to be repaired and recycled, the less waste we generate, the better it is for our world. And that is better for paddlesports.

INTERVIEW: JASON YARRINGTON

TRAILHEAD PADDLE SHACK – TRAILHEAD CANOES, OTTAWA, ONTARIO, CANADA

Trailhead Paddle Shack has been a Canadian landmark for nearly 50 years. It began in 1976 as Trailhead, merging with the Paddle Shack in 2012. We met with co-owner Jason Yarrington to hear his perspective on the past few years, what makes TPS so special, and what is expected for 2023.

Paddlers Guide Magazine: Jason, please introduce your business to us. What does Trailhead Paddle Shack represent to the regional community in Ontario and Quebec?

Jason Yarrington: Ottawa is an amazing area for paddling. We have world-class whitewater, world-class canoe tripping in nearby Algonquin Park, and great touring on our many lakes and the St Lawrence River. Trailhead Paddle Shack is the oldest outdoor store in Ottawa, Canada. Since its beginning, the store has been an institution in the world of paddle sports and outdoor gear in Eastern Canada.

PGM: Trailhead and The Paddle Shack were originally two separate stores, correct? What is the history behind Trailhead, The Paddle Shack, and your merge?

JY: Trailhead was opened in 1976, while I opened The Paddle Shack in 2000. For 12 years, we were competitors in the paddle sports business, located on the same street, before The Paddle Shack purchased Trailhead in 2012.

Trailhead Canoes began in 1976 when the original Trailhead owners began a still-successful guiding business called Black Feather on the Nahanni River in the Northwest Territories. We continue to build all of our canoes in Canada with designs focused on performing on Canada's many rivers and lakes.

PGM: TPS is a larger shop when it comes down to pure paddle sports retail players. What is your take on the fact that retailer numbers seem to reduce yearly?

JY: I am seeing fewer and fewer pure paddle sports stores remaining across Canada. While paddling is our heritage and the main focus for us, from whitewater to sea kayaks, stand-up paddleboards, and canoes, we have diversified to include nordic and alpine touring skis, outdoor clothing, and camping equipment. In Canada, our lakes and rivers are frozen for half the year, so the ability to diversify is essential. Our relatively large size and diversity have helped us in this regard.

PGM: Can you distill what makes Trailhead Paddle Shack what it is and why it works so well into a single sentence?

JY: We hire paddlers in all facets of the sport to provide the best customer service and maintain a large selection of inventory year-round.

PGM: In the two decades since you first founded the Paddle Shack, what main changes have you witnessed in paddle sports?

JY: Since taking over Trailhead in 2012, a few main things I've seen, at least for the North American market, is the change in ownership of many prominent paddling brands from private to corporately owned. From a sales standpoint, the largest changes have been the decrease in whitewater kayak sales, which were highest between 2004-2014, and the rise of stand-up paddleboards.

PGM: We saw you walking around at the Paddle Sports Show in France this past September. What were your biggest motivations for making the trip?

JY: The biggest reason for me to go to the Paddle Sports Show is to meet and talk with the owners and CEOs of the brands, as well as discuss business with industry members outside of North America. I've found that this show has been great for finding unique brands that aren't as prominent in North America, which we can then bring to our customer base in Canada. For example, since first attending the show a couple of years ago, we have been warehousing and distributing Norse Kayaks and partnered with Wave Sport, bringing it back to Canada.

PGM: When coming to the Paddle Sports Show, you also come as a manufacturer of Trailhead Canoes. Do you have distributors in Europe? What are you looking for at a show as a manufacturer?

JY: No, I don't currently have distribution set up in Europe, but I do sell Trailhead Canoe products to several accounts across Europe and the UK. Maybe one day, we'll have Trailhead Canoes across Europe!

PGM: How have the past three years been for your shop? Have there been challenges as a retailer?

JY: The last three years have been amazing for us. We worked really hard to find and buy inventory to meet the demands for boats and paddling gear, and it paid off.

PGM: How would you describe 2022 as a retailer?

JY: 2022 was a whirlwind year. In terms of not knowing how long the increase in demand would last. By July, the bubble had burst, and we've since seen a return to pre-pandemic sales in many areas.

PGM: How do you forecast 2023? What is your strategy for 2023?

JY: I think 2023 will see sales slightly higher than in pre-pandemic years. I believe the largest decreases will be in inflatable paddle boards and small rec kayaks. High-end canoes and sea kayaks continue to be an area where we expect growth. Coming out of the pandemic, hopefully, we'll see a large portion of customers who purchased their first SUP, kayak, or canoe become lifetime paddlers.

BOARDS

Every day, more people around the world are hopping on boards and heading out to enjoy the water. From fitness to family fun, surfing waves to racing long distance, stand up paddleboarding has a broad appeal to anyone looking to access river, lakes or oceans. Today, boards are made using a wide variety of materials, from PVC and rotomolded plastic to drop stitch and coconut husks. Innovations in inflatable technology have only increased the appeal and versatility of paddleboards allowing even those in urban environments to easily access the water.

DELTA - DELTA 10'AZUR

The Delta 10'Azur Inflatable Paddle is a versatile board, ideal for a first time purchase or family use. The board is sold as a c-pack consisting of equipment directly selected by our team of paddle experts.

Length: 305 cm/ 10' | Width: 81 cm/ 32" | Thickness: 15 cm/6" | Volume: 300 L | Weight: 7.8 Kg/ 17.1 lb

[DELTA-PADDLE.COM](https://delta-paddle.com)

AQUATONE - MIST 10'4" COMPACT SUP

Aquatone is thrilled to introduce the upgraded MIST 10'4" Compact SUP with electrifying new features and fresh seasonal graphics. The MIST offers a smart solution for travelling and storage. A tough yet lightweight core material and unique deck construction allow the board to be packed down to only half the size of a conventional air board. With the most popular all-round shape and a generous board width and thickness, the MIST boasts an uncompromisingly high performance for all riders to enjoy.

Length: 315 cm/10'4" | Width: 81 cm/32" | Volume: 295 L | Thickness: 15 cm/6" | Weight: 8.7 kg/19.2 lb | Max.Cap.: 128 kg/282 lb

[AQUATONE.COM](https://aquatone.com)

AQUATONE - HAZE 11'4" COMPACT SUP

A new and exciting season introduces the HAZE 11'4" touring SUP to join our fan-favorite Compact range. A perfect travel buddy on any adventure, the HAZE is versatile enough to handle all sorts of water conditions, especially in flat water or small waves. A tough yet lightweight core and unique deck construction allow the board to be packed down to only half the size of a conventional air board. The smart compact design offers convenience for frequent travelers, making it the perfect long-distance board in the aquatone family. Pack light, travel far!

Length: 345 cm/11'4" | Width: 81 cm/32" | Volume: 300 L | Thickness: 15 cm/6" | Weight: 9 kg/19.8 lb | Max.Cap.: 135 kg/298 lb

[AQUATONE.COM](https://aquatone.com)

AQUATONE - WAVE 10'6" ALL-ROUND SUP

The WAVE collection is the most welcomed go-to-board for all water conditions. Aquatone celebrates the WAVE collection with electrifying new features and fresh seasonal graphics. The all-time classic high performance all-round inflatable SUP, setting the benchmark with stunning performance and ultimate flexibility. The WAVE 10'6" is the ultimate SUP made lighter, stiffer and more stable and with even more fun. With a length of 10'6" (320cm), it is the most standard SUP size in our all-round range. Built with the most popular SUP shape, extra wide and generous thickness, the WAVE model is so easy to glide and very forgiving.

Length: 320 cm/10'6" | Width: 81 cm/32" | Volume: 300 L | Thickness: 15 cm/6" | Weight: 9 kg/19.8 lb | Max.Cap.: 143 kg/315 lb

[AQUATONE.COM](https://aquatone.com)

AQUATONE - WAVE PLUS 11'0" ALL-ROUND SUP

The WAVE collection is the perfect SUP board for those who are in the early career of paddle boarding. Featuring seasonal inspired patterns and vivid colorway, the WAVE PLUS 11'0" is a great all-rounder that guarantees a comfortable ride. It has the most popular all-round board shape, extra wide deck, thick profile, curvy rocker and responsive handling, making the WAVE PLUS collection the best performer for leisure paddling or small waves. If you are looking for the perfect control and comfort in all water conditions, WAVE PLUS 11'0" is your choice.

Length: 335 cm/11' | Width: 81 cm/32" | Volume: 310 L | Thickness: 15 cm/6" | Weight: 9.5 kg/20.9 lb | Max.Cap.: 145 kg/319 lb

[AQUATONE.COM](https://aquatone.com)

AZTRON - NEO NOVA 9'0" COMPACT SUP

Safety and performance folded into one small backpack. This is the very definition of the Compact Collection. Through reduced traction pads, the Double Chamber LITE Tech now offers even more convenience in packing with uncompromised function and revamped graphic design.

Length: 274 cm/9' | Width: 71 cm/28" | Volume: 190 L | Thickness: 12 cm/4.75" | Weight: 6.8 kg/15 lb | Max.Cap.: 90 kg/198 lb

AZTRON - NOVA 10'0" COMPACT SUP

Safety and performance folded into one small backpack. This is the very definition of the Compact Collection. Through reduced traction pads, the Double Chamber LITE Tech now offers even more convenience in packing with uncompromised function and revamped graphic design.

Length: 305 cm/10' | Width: 81 cm/32" | Volume: 275 L | Thickness: 15 cm/6" | Weight: 8.1 kg/17.9 lb | Max.Cap.: 115 kg/254 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - SUPER NOVA 11'0" COMPACT SUP

Safety and performance folded into one small backpack. This is the very definition of the Compact Collection. Through reduced traction pads, the Double Chamber LITE Tech now offers even more convenience in packing with uncompromised function and revamped graphic design.

Length: 335 cm/11' | Width: 81 cm/32" | Volume: 285 L | Thickness: 15 cm/6" | Weight: 8.3 kg/18.3 lb | Max.Cap.: 130 kg/286 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

RTM - ISUP PRO 11'

RTM offers a board adapted to the requirements of professionals and the expectations of practitioners. The versatility of the 11' Pro inflatable SUP board makes it a board adapted to all the needs of your customers, for clubs and rentals.

Length: 335.3 cm/11' | Width: 86.4 cm/34" | Volume: 356 L | Max. Cap.: 120 kg | Material: HDPE

[RTMKAYAKS.COM](https://rtmkayaks.com)

RTM - ISUP EXP 12'6

To satisfy your clientele of regulars and initiates, the sup EXP 12'6 is an alternative to the 10'6. Double skin construction, 3rd side layer reinforcement. Bag and pump provided.

Length: 381 cm/12'6 | Width: 76.4 cm/30" | Volume: 350 L | Max. Cap.: 120 kg | Material: HDPE

[RTMKAYAKS.COM](https://rtmkayaks.com)

RTM - ISUP MAX 16'

Want to evolve and explore new horizons? The ISUP MAW 16' is made of Drop Stitch material and perfect for a rental base, club, initiation, sup yoga, team building, challenges.

Length: 488 cm/16' | Width: 153 cm/60" | Volume: 450 L | Max. Cap.: 1280 kg | Material: HDPE

[RTMKAYAKS.COM](https://www.rtmkayaks.com)

RTM - ISUP PRO 10'6

RTM offers a board adapted to the requirements of professionals and the expectations of practitioners. The versatility of the 10'6 Pro inflatable SUP board makes it a board adapted to all the needs of your customers, for clubs and rentals.

Length: 320 cm/10'6 | Width: 82.2 cm/32" | Volume: 320 L | Max. Cap.: 100 kg | Material: HDPE

[RTMKAYAKS.COM](https://www.rtmkayaks.com)

RTM - PACK ISUP FUN 10'6

A rigid and lightweight board thanks to its Fusion Technology construction. This SUP is the ideal partner for your sea trips, lakes and rivers or your first surfing sessions. This versatile board is accessible to all paddlers!

Length: 320 cm/10'6 | Width: 76.4 cm/30" | Volume: 304 L | Max. Cap.: 100 kg | Material: Fusion Technology

[RTMKAYAKS.COM](https://www.rtmkayaks.com)

AQUA MARINA - VAPOR

The remastered VAPOR features a broadened tail for more generous volume to cater to paddlers looking for more stability. Equipped with our latest RED STRAP™ bungee system, carry more cargo with ease and safety under its ultra-elasticity. The EVA footpad features our new sand-ripple grooving for superior grip reminiscent of sandy beaches.

Length: 315 cm/10'4 | Width: 79 cm/31" | Weight: 8.2 kg/18.1 lb

[AQUAMARINA.COM](https://www.aquamarina.com)

AQUA MARINA - FUSION

The remastered FUSION features a broadened tail for more generous volume to cater to paddlers looking for more stability. WILDSUP.EU

WILD SUP - KING LION 11.5

The main difference maker – top class stability. You can be sure that this stiff, wide and long board is glued to the water surface so you and your partner can safely paddle and not worry about falling off!

Length: 350 cm/11'5" | Width: 90 cm/35.4" | Weight: 12 kg/26.4 lb | Max.Cap.: 270 kg/308.6 lb | Material: Double layer DROP STITCH PVC (1.5 mm)

WILDSUP.EU

INDIANA - APATCHA 11'6" SKY-BLUE/LIME

The stable 11'6" board is the 10'6" big brother and is perfect for long paddling excursions on lakes, rivers and oceans. The board's shape and the unique 8.5" hyperflow slidefin makes it very stable, whilst wowing both beginners and advanced paddlers with an on-center feel that's out of this world. The board is extremely sturdy, thanks to being 15 cm thick, whilst also being equipped with PVC pressure and tension belts. What's more, its additional volume means it has a great load capacity. Heavy bags, or even small camping equipment, can be carried on-board using the luggage net stretched across the board's nose. The board's robust single layer construction means that it weighs just 10.5 kg, making it super simple to transport using our top-class wheellie bag.

Length: 350 cm/11'6" | Width: 81.3 cm/32" | Thickness: 15 cm/6" | Construction: Single Layer with a double PVC belt | Material: Dropstitch . PVC

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA 11'6" FEATHER INFLATABLE

The feather-light board for adventurers, who like to take their board with them everywhere they go without missing out on performance. The length of 11'6" and the pointed, flat shape allow for brisk speed and good directional-stability. Thanks to the thickness of 6" it is stiff enough and the volume of 307 liters allows a large payload.

Length: 350 cm/11'6" | Width: 76.2 cm/30" | Thickness: 15 cm/6" | Material: Woven Dropstitch . PVC

[AZTRONSPORTS.COM](https://aztronsports.com)

INDIANA - INDIANA 11'6 TOURING LITE INFLATABLE

The 11'6 Touring LITE with a pointed and flat shape is suitable for lighter paddlers. Since it is less voluminous and even lighter than the 11'6 Touring, people with less power can move forward quickly. The woven dropstitch and the pre-laminated double layer PVC make it robust and stiff. The fiberglass foot bases in the stand area provide a hardboard feeling.

Length: 350 cm/11'6 | Width: 76.2 cm/30" | Thickness: 12 cm/4.75" | Material: Woven Dropstitch . PVC | Construction: Pre-Laminated Double Layer . EVA'

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA 12'6 S TOURING INFLATABLE

The Indiana 12'6 S Touring Inflatable is the faster and sportier version of the 12'6 Touring. At 29 inches wide, it is a full 2 inches narrower. The pointed nose and the flat shape allow a very brisk pace on tours. Thanks to the woven Pre-Laminated Double-Layer Dropstitch, it is very light and yet robust and stiff. The fiberglass foot bases in the stand area create a hardboard feeling. Supercool! Split Fin Box, Straight Shape, 8.5 Hyperflow Fin, Speed Tail, Fiberglass Footbases, Shoulder Strap, Cam Connector. Including: Incl. Wheelie Bag, HP8 Double Action Pump, Repair Kit.

Length: 381 cm/12'6 | Width: 73.7 cm/29" | Thickness: 15 cm/6" | Material: Woven Dropstitch . PVC | Construction: Pre-Laminated Double Layer

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA 12'6 TOURING LTD INFLATABLE

This year's limited edition was designed by tattoo artist and adventure ambassador Pat Müller. The motifs show man's connection to nature and embody its importance for our coexistence on the planet. The pointed and flat 12'6 Limited Touring with a width of 28 " is fast and sporty and enables advanced paddlers to take longer tours. The special materialization with woven pre-laminated double layer, double PVC belt plus fiberglass pressure belt gives the board extremely high performance. The fiberglass foot bases in the stand area provide a hardboard feeling.

Length: 381 cm/12'6 | Width: 71.1 cm/28" | Thickness: 15 cm/6" / 15 cm | Material: Woven Pre-Laminated Double Layer

INDIANA - INDIANA 12'6 OCEAN TOURING INFLATABLE

If you want to SUP in the wind and waves on the lakes or outside in the open sea, the Indiana 12'6 Ocean Touring Inflatable is the right board under your feet. It has a pronounced scoop rocker line, which allows you to take advantage of the wave thrust on a downwinder without a nose dive. The fast outline with a width of 30 inches gives the board enough stability to stay in balance even during long sessions. Thanks to the woven Pre-Laminated Double-Layer Dropstitch, it is very light and yet robust and stiff. The fiberglass foot bases in the stand area create a hardboard feeling.

Length: 381 cm/12'6 | Width: 76.2 cm/30" | Thickness: 15 cm/6" | Material: Woven Dropstitch . PVC | Construction: Pre-Laminated Double Layer

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA 10'2 GROMS PACK

A teenager with a weight up to 60 kg will have fun with the Groms 10'2 haben. The narrow and therefore fast touring shape allows fast paddling. With the little nose-scoop even choppy conditions and small waves can be handled easily.. Thank to the 4.75 Inch thick Single Layer Dropstitch, the board is only 6.6 kg in weight bit still very stiff. Supercool! Split Fin Box, ¼ Inch Camera Connector.

Length: 310 cm/10'2 | Width: 66 cm/26" | Thickness: 12 cm/4.75" | Material: Knitted Dropstitch . PVC | Construction: Single Layer

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA 14'0 RS INFLATABLE

The newly designed 14'0 RS LTD is a purebred Inflatable Raceboard. With its 26" width, it's uncompromisingly trimmed on racing and attracts aspiring and experienced paddlers. For maximum stiffness and minimal weight, only the best materials are used. The low-resistance slidefin box, the 8.5 " hyperflow polyamide fin and the tear-off edge at the tail ensure plenty of speed. Supercool! Fibreglass Foot Bases, 8.5 Hyperflow Polyamid Slide-Fin, Rubber Tear Off Edge, ¼ Inch Camera Connector Incl. Wheelie Bag + Paddle-Connecting-System, HP 2 Double Action Pump, Repair Kit

Length: 426.7 cm/14' | Width: 66 cm/26" | Thickness: 15 cm/6" | Material: Woven Dropstitch . PVC | Construction: Pre-Laminated Double Layer . PVC Double Belt

NEW
2023

INDIANA - *INDIANA 14'0 ALL WATER RACE CARBON 23'*

The 23" All Water Race Board is truly a racing machine for all conditions. The outline and the rocker are built to master choppy conditions without sacrificing performance. Crisp, straight-lined edgy to cut softly through rough water conditions.

Length: 426.7 cm/14' | Width: 58.4 cm/23"

INDIANA-PADDLESURF.CH/EN

INDIANA - *INDIANA 14' DHC RACE DUGOUT HOLLOW CARBON 21.5"*

The new Dugout Hollow Carbon Raceboard. Only 21.5" narrow, it guarantees a lot of speed. Due to the low standing position in the dugout and the high, steep rails, the board by shaper Andi Widmann is still very stable. The nose scoop is so high that the narrow nose flies freely over the chop and cuts through the waves as soft as butter even in difficult conditions. The middle area is gently rocked through, which means that the wetted area can be reduced as much as possible. The slightly monoconcave, parallel channel in the underwater hull ensures reduced frictional resistance and optimized directional stability. The tail kick prevents the tail from being sucked in, it also enables tight buoy turns and guarantees the best downwind properties in rougher conditions. The square detail with sharp edges up to the fin ensures a perfect tear off of the water, eling.

Length: 426.7 cm/14' | Width: 54.6 cm/21.5" | Material: Carbon . Airex Foam | Construction: Hollow Carbon

INDIANA-PADDLESURF.CH/EN

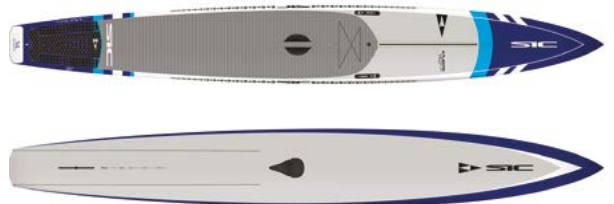

SIC - *ATLANTIS*

The ATLANTIS is the slayer of rough water conditions, designed with a deep cockpit and high rail line for secondary stability that mitigates water flow into the cockpit. This board features a single venturi drain integrated with the EZ-Grab handle to clear water that flows into the cockpit quickly.

Length: 426 cm/14'0 | Width: 66 cm/26" | Thickness: 23.4 cm/9.2" | Volume: 315 L/83.2 G

SICMAUI.COM

SIC - *XRS*

In a world full of cross-over boards, the XRS race board is a master of one thing - flat water racing. It's a purebred board with a one-track mind: to beat the clock, to win!

Length: 427 cm/14'0 | Width: 56 cm/22" | Volume: 340 L/89.8 G

SICMAUI.COM

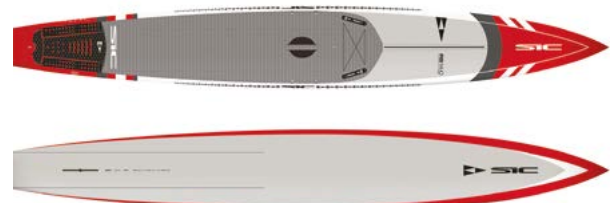

SIC - *RS*

The RS is fast in flat and all-water conditions, helping you reach your top-end speed. It's the most trusted performing race board on the market.

The Okeanos is a fitness and touring board outfitted with numerous tie-downs to mount your cargo. It is super stable rail-to-rail making this a great board to fish off and load with gear for any adventure.

Length: 427 cm/14'0 | Width: 71 cm/28" | Volume: 305 L/80.5 G | Weight: 15.7 kg/35 lb

SICMAUI.COM

AZTRON - SONIC 14'0" RACE SUP

The SONIC 14'0" is simply built to unlock your full competitive nature to reach the podium. The 2023 Flatwater version is the most progressive and fastest board in the range. The extra narrow width at just 22" combined with a recessed deck and mini-square tail design offer unmatched glide per stroke and fantastic stability in chops. This board works very well upwind, light bump and downwind. The sleek and competitive design is aimed to give you the confidence to handle any water conditions.

Length: 427 cm/14' | Width: 56 cm/22" | Volume: 270 L | Thickness: 21 cm/8.4" | Weight: 14 kg/31.4 lb | Max.Cap.: 115 kg/254 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - LIGHTSPEED 14'0" RACE SUP ALL-WATER / FLAT WATER

Spice up the competition with some of the lightest and fastest composite race boards. This popular LIGHTSPEED 14'0" race SUP is constructed with most advanced CNC shaped EPS foam core and Innegra with 3K Carbon laminated layers. Making it super lightweight and offers the perfect stiffness to weight ratio. The new features of the 2022 season include a raised narrow nose, multiple race handles, recessed deck for lower gravity, sectional deep grooved EVA foot pad and an integrated tail kick for pivot turns. This is the ultimate choice for riders to win.

Length: 427 cm/14' | Width: 62 cm/24.5" | Volume: 290 L | Thickness: 21 cm/8.4" | Weight: 12.5 kg/27.6 lb | Max.Cap.: 120 kg/265 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

FANATIC - STRIKE CARBON

The Strike, our absolute speed machine was designed with one goal in mind: to put you on the top step of the podium. By combining his great racing experience and his skills as a naval engineer, pro-rider Kai-Nicolas Steimer has found the perfect balance between speed and control. With its elegant and efficient shape, it is simply the fastest board you'll find on flat water.

Size: 14'0" x 25" (3 available) | Volume : 305 L | Width : 63.5 cm/25" | Length: 426.7 cm/14' | Weight: 12.45 kg/27 lb | User Weight : 80-115 kg

[FANATIC.COM](https://fanatic.com)

AZTRON - EUROPA 12'6" TOURING SUP

Blend in nature with the all-new EUROPA 12'6" Bamboo SUP. Incorporating the versatile characteristics of the bamboo and making a board that maximizes stability and glide without compromising performance. The EUROPA 12'6" is built with Bamboo/Epoxy construction, which is ideal for longer distances, perfect for those who wish to venture further and fully immerse in all that nature has to offer. Other features include flat nose entry, camera mount, front and tail bungee systems, recessed deck and square reduced tail. Inspired from the EUROPA moon, this is a true beauty that you'll enjoy all season long.

Length: 381 cm/12'6" | Width: 72 cm/28.5" | Volume: 270 L | Thickness: 19 cm/7.5" | Weight: 14.4 kg/32 lb | Max.Cap.: 115 kg/253 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

FANATIC - BLITZ CARBON

Combining the shape elements of the Falcon and Strike, the new Blitz, our versatile racing beast, is incredibly fast under any conditions. In close collaboration between our shaper Kai Nicolas Steimer and our best SUP racers Arthur Arutkin and Christian Andersen, the 2022 Blitz has been completely redesigned. The Blitz inspires confidence and excels in challenging conditions, whether you're rowing in a trained sea or sprinting across the finish line of a race.

Size: 14'0" x 26" (2 available) | Volume : 347 L | Width: 66 cm/26" | Length: 426.7 cm/14' | Weight : 13.6 kg/30 lb | User Weight: 70-90 kg

[FANATIC.COM](https://fanatic.com)

WHITEWATER BOARDS

BOARDS CREATED FOR CHALLENGE OF PADDLING WHITEWATER. THOSE BOARDS ARE STRONGER AND WIDER, DESIGNED TO CRUISE OVER CURRENTS AND EDDIES.

LEVEL SIX - RIVER SURFER

While we built the River Surfer Inflatable SUP with river waves in mind, it can be used in the ocean too. While you'll never get the same performance as an epoxy board carving on a wave due to the rail shape, we made the board as thin as possible without sacrificing stiffness. The carbon laminated sidewalls, raised deck pad and quad fin set up will let you surf any wave small or large.

Length: 259 cm/8'6" | Width: 83.8 cm/33" | Thickness: 11.9 cm/4.7" | Max. Cap.: 104.3 kg/230 lb | Material: Mono layer fusion drop stitch | Colors: Aegean Blue

LEVELSIX.EU

LEVEL SIX - FIVE-O SOFT TOP RIVER SURF

Are you landlocked but looking to surf your local river wave? We set out to make a board that was relatively inexpensive, durable, and something that you could throw in the back of the car and bring with you when heading up to the river. From high volume and dynamic to flat and mushy, or short and steep the five-0 can surf it all. Lots of stability and volume means it is the perfect board for a beginner and casual river surfer looking to surf different waves in river conditions.

Length: 152 cm/5' | Width: 54.6 cm/21.5" | Thickness: 7.6 cm/3" | Max. Cap.: 88.5 kg/195 lb | Material: EPS Foam Core EVA Soft Top | Colors: Aegean blue

LEVELSIX.EU

AZTRON - SIRIUS 9'6" WHITEWATER SUP

The SIRIUS has a major update for the 2023 season. With the new board outline and features, this innovative 2-in-1 SUP can perform up to Class II white water rapids or small to medium-sized waves. Thanks to a 36" extra-wide deck, the board has plenty of room to make advanced maneuvers. The foot traction deck features a 5mm thick deep diamond grooved soft EVA foam pad, providing rider maximum grip and stability while paddling. The fish-tail is responsive for turns in choppy conditions. The 4+1 fins system is specially designed for the flat water and rapids paddling needs.

Length: 289 cm/9'6" | Width: 91 cm/36" | Volume: 325 L | Thickness: 15 cm/6" | Weight: 10.1 kg/22.2 lb | Max. Cap.: 125 kg/276 lbb

AZTRONSPORTS.COM

LEVEL SIX - RIVER RUNNER

Our River Runner Inflatable SUP was designed and tested on the mighty Ottawa River which means it is destined for big waves, strong eddy lines, and boofing over holes. We used our HD dual layer drop-stitch construction for long-term durability, so it can take the abuse the river dishes out. With substantial progressive rocker, raised sidewalls and a tri fin set up it'll be a great board for experienced whitewater SUPers on challenging water and first timers looking to give it a try.

Length: 294.6 cm/9'8" | Width: 88.9 cm/35" | Thickness: 15 cm/6" | Weight: 9.3 kg/20.5 lb | Max. Cap.: 122.5 kg/270 lb | Material: Dual layer drop stitch with reinforced sidewalls | Colors: Aegean Blue

LEVELSIX.EU

INDIANA - INDIANA 10'2 RIVER INFLATABLE

The bigger of the two River SUPs is suitable for wild waters and longer tours on rivers. Thanks to the baggage cord with six attachments, your outdoor equipment can be fastened on the 10'2 River SUP without problems. The shape impresses with a functional outline where the widest point of the SUP is behind the middle. The special volume distribution, in combination with a progressive rocker line on the front and the rear end makes the board very agile and allows precise steering. The length is ideal for beginners and heavy paddlers. The distribution of the volume ensures stability and keeps the board in track when passing through rapids. With an additional PVC strengthening on the rear end, the construction with Woven Real Double Layer leaves no room for desires when it comes to stiffness, durability and weight.

Length: 350 cm/11'6" | Width: 76.2 cm/30" | Thickness: 15 cm/6" | Material: Woven Dropstitch . PVC

AZTRON - CYGNUS 9'0" SOFT-TOP SURFBOARD

The 2023 season introduces a brand-new iridescent blue theme to one of the collection's most popular and adaptable boards. The soft-top CYGNUS 9'0" is the ideal learn-to-surf board with a longboard shape. EPS core creates ultra lightness, balanced by the HDPE bottom, which gives an excellent riding speed. Budget-friendly and user-friendly, this is a must-have for all novice surfers.

Length: 274 cm/9' | Width: 59 cm/23.2" | Volume: 85 L | Thickness: 10 cm/3.9" | Weight: 8.7 kg/19.2 lb | Max.Cap.: 115 kg/253 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - CRUX 7'0" SOFT-TOP SURFBOARD

The CRUX 7'0" is a high-performance soft-top surfboard that excels in all kinds of waves. A hybrid between a fun board and a longboard, the CRUX can easily catch waves and carve in power. The perfect length-to-width ratio is greatly optimized for a combination of lightness, speed, and agility, making it one of the best choices when it comes to surfboards. Key features include IXPE deck, HDPE slick bottom for best tracking and impact resistance, safety leash connect and many more. The 7.0 Surf Leash is included in the package.

Length: 241 cm/7' | Width: 54.5 cm/21.5" | Volume: 72 L | Thickness: 7.6 cm/3" | Weight: 6.2 kg/13.7 lb | Max.Cap.: 98 kg/216 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - VOLANS 5'8" SOFT-TOP SURFBOARD

The VOLANS is designed with a big, wide nose and its fish tail helps generate extra speed in the water. This is a perfect board to surf small and medium waves. Key features include IXPE deck, HDPE slick bottom for best tracking and impact resistance, safety leash connect and many more. The 6.0 Surf Leash is included in the package.

Length: 172 cm/5'8" | Width: 56 cm/22" | Volume: 50 L | Thickness: 7 cm/2.7" | Weight: 4.1 kg/9 lb | Max.Cap.: 80 kg/176 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - AQUILA 8'0" SOFT-TOP SURFBOARD

The AQUILA 8'0" is the longer version of CRUX 7'0". Bringing more stability to all riders. Designed to be highly adaptable and forgiving, this board handles all wave conditions and responds quickly to manoeuvres. AQUILA is the perfect board for entry-level surfers. Key features include IXPE deck, HDPE slick bottom for best tracking and impact resistance, safety leash connect and many more. The 8.0 Surf Leash is included in the package.

Length: 243 cm/8' | Width: 56 cm/22" | Volume: 86 L | Thickness: 7.6 cm/3" | Weight: 7.1 kg/15.6 lb | Max.Cap.: 103 kg/227 lb

Length: 5'11" x 30" | Vol: 120 L | Material: SFX

[SICMAUI.COM](https://sicmaui.com)

TAHE - TECHNO WIND FOIL 130

The Techno Wind Foil 130 is the ideal board for experiencing and enjoying freeride and foil-board riding. Designed to excel at both at a high level, it enables you to sail in much lighter winds and to get maximum fun in the widest range of conditions possible. It's a «convertible» package that will please riders who want the best of both, light-wind foil riding and strong-wind fun.

Length: 230 x 81.5 cm | Volume: 130 L/34.3 G | Material: Ace-Tec

[TAHESPORT.COM](https://tahesport.com)

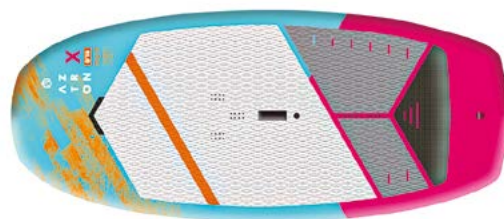

AZTRON - FALCON CARBON X 5'10" WING FOIL BOARD

Fly above and beyond! The FALCON CARBON X 5'10" is a fully optimized wing foil board for peak performance. With its compact size and the exceptional lightweight carbon and bamboo veneer construction, the FALCON X is extremely lightweight but rigid, giving it greater control for advanced maneuvers. The extra-wide deck offers a maximum surface area with plenty of volumes, making it easy to get started while avoiding nose-diving. The double concaves also boost the performance with great stability and soft touch downs.

Length: 178 cm/5'10" | Width: 76.2 cm/30" | Volume: 115 L | Thickness: 10.9 cm/4.3" | Weight: 6.5 kg/14.3 lb | Max.Cap.: 95 kg/209 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

SIC - RAPTOR PRO (SFX)

The low-volume RAPTOR PRO 4'11" performance wing foil board is perfect for free riding and chasing speed. Minimal thickness allows for more direct control, while the flat bottom chine provides a smooth lift-off and better glide.

Length: 4'11" x 22" | Vol: 60 L | Material: SFX

[SICMAUI.COM](https://sicmaui.com)

INDIANA - INDIANA 4'5 SURF FOIL CARBON

The 4'5 Surf Foil Board was developed on Fuerteventura by foil expert Gunnar Biniösch. With a volume of 40 liters, it is designed for light and very good foil surfers. It is very short and has little bulk, which makes it playful and there are no limits to foil surfing. The flat scoop rocker line, the tail kick and the generous volume enable very easy gliding in the wave and early take off. Due to the distinct concave in the chest area, the rails are raised, which makes the easier and faster for the surfer to jump on the board. The comfortable EVA pad guarantees a very good grip for optimal control.

Length: 135 cm/4'5" | Width: 48 cm/19" | Thickness: 8.8 cm/3.7" | Material: EPS Foam . Carbon . Fibreglass . Epoxy | Construction: Carbon Fibreglass Sandwich

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA WING FOIL 81L CARBON

Gunnar Biniösch designed our Wingfoil Boards to boost your wing-skills to the next level. Every aspect of these boards is designed to maximize low-end wind-range whilst keeping the shape compact for maximum Surfing and freeriding fun. The Full Carbon Sandwich construction strikes a perfect balance between durability and lightness. The forward biased volume distribution and maximised flat area makes standing up easy, even in the most choppy conditions. The Boards feature V-Straps which keeps your front foot as close to the center-line as possible and make mounting very simple and keeps weight down. The carry handle on the bottom of the board allows you to carry the board easily and keep the wing away from the foil. The Nose Handle option makes pulling the board through shore break easy and safe allowing you easily swim the board out on those difficult onshore conditions.

Length: 152.4 cm/5' | Width: 62.2 cm/24.75" | Thickness: 11.6 cm/4.56"

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA WING FOIL 149L INFLATABLE

With the 149 liter SUP / Wingfoil Inflatable developed by foil expert Gunnar Biniösch, even heavier foilers can fly, with a paddle or with a wing. It is almost indestructible and ideal for travelling. Its construction with woven real double layer, the fiberglass compression belts and the thickness of 6" make it extremely stiff and direct. The reinforcement of the boxes prevents the board from sagging before the foil. The V-footstraps can be installed optionally. The handle on the nose helps to get the board through the shore break successfully. All Wingfoil boards feature lightweight M6 Footstrap Inserts for V-Straps for Winging. The new corrugated pad is designed for maximum comfort and lateral grip whilst allowing you to easily move your feet forwards and backwards when trimming the board in flight.

Length: 182 cm/6' | Width: 71 cm/28" | Thickness: 15 cm/6" | Material: Woven Dropstitch . PVC | Construction: Real Double Layer . Top & Bottom: Fibreglass Stringer

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA 3'7 PUMP FOIL "LE DOIGT" CARBON

Indiana Ambassador Steeve Fleury has shaped and designed his own signature board. It is dedicated to pure pumping and dock start foiling. This pumping machine is small, compact, light and strong. The shape of this board allows you to get the longest fly and to carve like hell. The rails are round on the top and sharp on the bottom. When you turn too tight or touch the water they keep the glide, don't slow your speed and allow you to re-takeoff easily. With this 24 liter board you can even paddle and catch waves. The tail has an angle to help you doing ollies but is still thick enough to allow the wave to push you. This board is the best compromise between weight, strength and volume to give you the maximum performance you need in a pumping session.

Length: 109 cm/3'7" | Width: 47.2 cm/16.6" | Thickness: 6.1 cm/2.4" | Material: EPS Foam . Carbon . Fibreglass . Epoxy | Construction: Carbon Fibreglass Sandwich

INDIANA-PADDLESURF.CH/EN

INDIANA - INDIANA PUMP FOIL 95 CARBON

Reduced to the max. The 95 board is a pumping machine with a classic carbon look and the familiar Tiki-Design, that appears modest but is still a true eyecatcher. For optimal performance, the deck is kept flat and is fully covered (depending on the board size) by an EVA-pad with rails to guarantee best hold and grip but flexibility to move back and forth. The slight nose-scoop in combination with the softly rounded rails, provides minimal touchdown resistance and helps to recover easily. The construction is light but still very resilient due to the PCV-foam core and carbon lamination.

Length: 95 cm/3.1' | Width: 46 cm/18" | Thickness: 2.8 cm/1.10" | Material: PVC Foam . Carbon . Epoxy | Construction: PVC Foam . Carbon

AZTRON - SPACE RIDER 55" WAKESURF BOARD

Taking our wakesurf boards to the next level! Designed for small to medium-sized waves, the all-new SPACE RIDER 55" is a modern high-performance design packed into a compact shape. Featuring a Bamboo Sandwich Construction, this wakesurf board is lightweight yet durable. The unique pear-shaped outline combined with a diamond tail gives the board great speed and holds turns exceptionally well. With a bamboo deck, the board has a lively feel when snapping turns and popping airs. This is a board that blends the two worlds of high performance surf style and seamless skim style, so you'll never have to choose!

Length: 139.7 cm/55" | Width: 53.3 cm/21" | Volume: 28.9 L | Thickness: 2.8 cm/1.1" | Weight: 3.2 kg/7.05 lb

[AZTRONSPORTS.COM](https://www.aztronsports.com)

AZTRON - DAWN 30 BLANCE BOARD

Get prepared even when you are out of water. The AZTRON balance board will help you improve core strength, stability, coordination, and reaction time. The DAWN 30 is crafted from birch and with a fish-tail design which refers to the surfboard. The collection is perfect for balance mode and with adjustable stops between the stops at the back of the board, so you can easily adjust the strength level to train up. Balance Board. This shortboard is best suited for the advanced rider. .

Length: 76 cm/30" | Width: 35 cm/13.7" | Thickness: 1.5 cm/0.59" | Roller: 18.1" x 4.1" / 45 x 10.5 cm | Adjustable Sets: 3 levels | Weight: 4.75 kg/10.4 lb | Max.Cap.: 65 kg/143 lb

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - DUSK 44 BLANCE BOARD

Simulates surfing with a rail-to-rail ride! Designed with the surfer in mind, the DUSK 44 is built to ensure the most demands of riders to improve balance, stability, and overall core strength. The longboard shape for 2022 even allows riders to practice cross-stepping on the deck while keeping the weight and centre of balance over the roller. The premium birch and thicker rail make the DUSK incredibly stable and durable. Get on Surf mode without going into the water!

Length: 112 cm/44" | Width: 38 cm/15" | Thickness: 1.5 cm/0.59" | Roller: 36.6" x 4.4" / 93 x 11.2 cm | Adjustable Sets: 1 level | Weight: 7.25 kg/16 lb | Max.Cap.: 112 kg/247 lb

PEDALBOATS | STAND UP PADDLEBOARDS POWERED BY OUR FEET.

HOBIE - MIRAGE ECLIPSE

Introducing the All-New 2023 Mirage Eclipse Pedalboard. Step out at an easy glide on a Mirage Eclipse. Using a natural stepping motion, effortlessly power into a headwind or pick it up for an all-out sprint. The powerful underwater fins efficiently propel the Eclipse forward. There's minimal setup. Go from the dock or a boat to the water in minutes. Ideal for cruising solo, daily workout with a partner or group excursions.

Length: 350 cm/11'6" | Width: 93 cm 37" | Weight: 26 kg/58 lb | Max.Cap.: 136 kg/300 lb | Material: ACE-TEC Construction

[HOBIE.COM](https://hobie.com)

The image is a banner for the Paddler Guide website. It features a large, stylized clock face on the left with the text 'PADDLER GUIDE.com' in large, bold, white letters. Below the text is the tagline 'The one-stop shop website for paddlesports gear addicts'. On the right, there is a computer monitor displaying the website's homepage, which includes a navigation menu, a search bar, and several images of people paddling. The background of the banner is a dynamic image of a person paddling a kayak through white water.

SKATE & LONGBOARD

BOARDS DESIGNED FOR OFF WATER PRACTICE AND FUN.

AZTRON - WILD ROSE 45 DANCE BOARD

WILD ROSE 45", the first dance board in the lineup, is designed to show your fanciest footwork. The hybrid shape with extra length and a narrower outline provides sufficient space and uncompromised mobility, allowing you to coordinate your dance moves and display your vibe freely. This fine-tuned board is ideal for dancing, freestyle movements, or surf-style slides and is a perfect stage to show your smooth and graceful riding.

Length: 115.6 cm/45.5" | Width: 23.5 cm/9.25" | Tail: 16.5 cm/6.5" | Weight: 3.9 kg/8.6 lb | Truck: DANZA RASPBERRY ROSE | Wheels: 70*51 cm

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - BANG 29 SURFSKATE BOARD

A board to set your audience on fire! Our shortest yet fastest board in the lineup, BANG 29, is born for the bold. Its compact size, highly mobile ATOMIC truck and deep concave deck all translated the board into an outstanding reality. Surfboard-inspired rocker and tail grant more air time, making it the ultimate performance board in the series. The new season print inspired by the Big Bang creates a mindblowing visual impact. Take it to the streets. It's show time!

Length: 73.7 cm/29" | Width: 24.1 cm/9.5" | Tail: 18 cm/7.1" | Weight: 3.1 kg/6.8 lb | Truck: ATOMIC Spring truck | Wheels: 65*51 cm

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - IN.SCAPE 32 SURFSKATE BOARD

This is a one-stop board designed to serve full-level surfers. A medium recessed deck guarantees a firm grip on the ground and superb stability during the ride. Diamond-shaped tail and highly responsive ATOMIC trucks allow the riders to perform more radical manoeuvres and polish their skills, while the high rebound wheels render great carving experiences. Meet the IN.SCAPE 32 with stunning artistic design for the new season and all the features you're looking for in a surfskate.

Length: 81.2 cm/32" | Width: 24.3 cm/9.5" | Tail: 14 cm/5.6" | Weight: 3.3 kg/7.3 lb | Truck: ATOMIC Spring truck | Wheels: 65*51 cm

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - FACE 33 SURFSKATE BOARD

This season, AZTRON presents FACE 33 to surfskate lovers at all levels. Featuring a flat deck and the signature SX 4.0 truck, this board offers steady and effortless navigation with amazing gliding ability, ideal for long-distance travel. This all-round board, perfectly attuned for cruising, enables all riders to traverse the land with the same ease as surfing on water. The new seasonal graphic centred around "individuality" — a theme inspired by its namesake, dedicated to the celebration of self.

Length: 83.8 cm/33" | Width: 25 cm/9.85" | Tail: 17 cm/6.7" | Weight: 3.3 kg/7.3 lb | Truck: SX 4.0 PU truck system | Wheels: 70*51 cm

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - GRAVITY 42 SURFSKATE BOARD

For the new season, AZTRON brings the surfing session from sea to land with a unique new line of surf skateboards. The all-new GRAVITY 42 Long Board made with ultra-durable 100% Canadian Maple Wood top and bottom deck perfectly combines surfing and skateboarding that makes offseason training interesting and uncomplicated. Our signature SX 4.0 surf trucks combined with 75mm 78A wheels make it an exciting board that allows tight turns and incredible speed. If you're looking to progress the surf game to the next level, then look no further, this is a board that delivers all the playful surfy rides. .

Length: 106.7 cm/42" | Width: 26 cm/10.25" | Tail: 13.4 cm/5.27" | Weight: 3.37 kg/7.43 lb | Truck: SX 4.0 PU truck system | Wheels: 70*51 cm

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - SPACE 40 SURFSKATE BOARD

The SPACE 40 offers a surf skating experience that is very similar to that of surfing in the water. Which makes this longboard perfect for surf training during the off-season. Applying a 7-ply Canadian Maple wood with a Carbon Inlay stringer for deck construction that yields a super durable and lightweight board. A unique design with ticks and bearing utilizes the internal spring tension adjustment to replicate surfing actions. The ABEC 9 combined with the trucks makes one of the smoothest turning, fastest pumping boards for true surfskate performance.

Length: 101.6 cm/40" | Width: 24.8 cm/9.75" | Tail: 10.5 cm/4.1" | Weight: 3.6 kg/7.9 lb | Truck: SX 4.0 PU truck system | Wheels: 70*51 cm

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - STREET 31 SURFSKATE BOARD

AZTRON offers a unique range of surfskates that replicate a surfboard's feeling and movement by using our innovative truck system that simulates the curved lines a surfer performs on a wave. We offer different board shapes, characteristics and deck technologies to meet all the needs. Shortboards like the STREET 31 allow for short and tight swings that are similar to surfing shortboard. It offers a short and wide deck range that is specifically designed for smaller to medium size riders. Built with 5+2 layers (rock maple with Canadian Maple wood), this board is durable yet budget-friendly.

Length: 78.7 cm/31" | Width: 25.4 cm/10" | Tail: 16.2 cm/6.36" | Weight: 3 kg/6.6 lb | Truck: SX 4.0 PU truck system | Wheels: 65*51 cm

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - ISLAND 30 SURFSKATE BOARD

Surfing from Sea to Land! AZTRON offers a unique range of surfskates that replicate a surfboard's feeling and movement by using our innovative truck system that simulates the curved lines a surfer performs on a wave. The ISLAND 30 features a new ATOMIC truck system to allow for short and tight swings that are similar to surfing shortboards. With a concave deck for extra grip and stability, this board is also born for doing tricks.

Length: 76.2 cm/30" | Width: 24.1 cm/9.48" | Tail: 15.8 cm/6.22" | Weight: 3.2 kg/7.1 lb | Truck: ATOMIC Spring truck | Wheels: 65*51 cm

The background image shows a person in a wetsuit and helmet performing a stunt on a stand-up paddleboard (SUP) in a narrow waterway. The person is crouched low on the board, holding a paddle, and is creating a large splash of water. In the background, there is a bridge with a metal railing and a building with windows. The scene is lit with warm, golden light, suggesting late afternoon or early morning.
